

Product Name : Pigment Ink For Textile Black MSDS No. 031-33W03KC First issue : Oct 18, 2007 Revised : Jun 13, 2008 Page 1 of 10

Material Safety Data Sheets

1. Product and Company Identification

Product Name	: Pigment Ink For Textile Black
Product Code	: SPC-0350K
General Use	: Ink jet printing ink
Product Description	: Pigment ink
MSDS Number	: 031-33W03KC
Manufacture	
Company Name	: Mimaki Engineering Co., Ltd
Address	: 2182-3 Otsu, Shigeno, Tomi-shi, Nagano 389-0512 Japan
Telephone No.	: +81-268-64-2413
Importer/Distributor Estab	blished in USA
Company Name	: MIMAKI USA. INC.
Address	: 150 Satellite Boulevard, suite A, Suwanee, Georgia 30024, U.S.A
Telephone No.	: 1-678-730-0100
Emergency Telephone No.	: +81-268-64-2413

2. Hazards Identification

Emergency Overview	Causes severe eye irritation. Prolonged or repeated overexposure to the solvent(s) in this material can cause the following: liver damage,		
	kidney damage, embryofetotoxic effects. Prolonged or repeated		
	overexposure to carbon black can cause lung effects.		
Potential Health Effects			
Inhalation	: Inhalation of solvent vapor or mist can cause the following:		
	irritation of nose, throat, and lungs, headache, nausea.		
Eye Contact	: Direct contact with material can cause the following: severe		
	irritation, tearing, reddening.		
Skin Contact	: Material can cause the following: slight irritation.		
Ingestion	: Material is possibly harmful if swallowed. Material can cause the		
	following: abdominal pain, vomiting, nausea, depression, diarrhea,		
	gastrointestinal irritation, dizziness.		

Carcinogens	: Prolonged or repea	ated overexposure to carbon black can cause lung			
	effects.				
	Modified Carbon bla	ack			
	ACGIH: Not classifiable as a human carcinogen.				
	IARC: Possible car	cinogen.			
	US CA CRT: Carcinogenic.				
	NIOSH Potentially	v carcinogenic.			
Potential Environmental	: Not available				
Effects					
HMIS Rating (s	scale $0 - 4$)	NFPA Rating (scale $0-4$)			
Health = $2*$		Health =

Reactivity $= 0$		Instability =			
		Special =			

3. Composition / Information On Ingredients

Material Safety Data Sheets

No	Chemical Name	Wt%	CAS No.	Chemical
				Formula
1	Acrylic polymer(s)	3.0-6.0%	Not Hazardous	Trade Secret
2	Modified Carbon black	2.0-4.0%	Trade Secret	Trade Secret
3	Residual monomers	<100.0 PPM	Not Required	
4	Glycols	11.0-13.0%	Trade Secret	Trade Secret
5	Pyrrolidone	7.0-9.0%	616 - 45 - 5	C ₄ H ₇ NO
6	Anionic / nonionic surfactant(s)	2.0-4.0%	Trade Secret	Trade Secret
7	Water	66.0-69.0%	7732-18-5	H_2O

OSHA Hazardous Components (29 CFR 1910. 1200) : This product is considered hazardous under the OSHA Hazard Communication Standard.

Inhalation	: Move to fresh air. Give artificial respiration if breathing has
	stopped. Consult a physician.
Eye Contact	: Immediately flush eye(s) with plenty of water. Get prompt medical
	attention.
Skin Contact	: Wash with water and soap as a precaution. If skin irritation
	persists, call a physician. Wash contaminated clothing before reuse.
Ingestion	: Drink 1 or 2 glasses of water. Consult a physician. Never give
	anything by mouth to an unconscious person. If vomiting occurs
	spontaneously, keep airway clear.

Protection to first-aiders

5. Fire Fighting Measures

Flammable Properties	Flash point: Noncombustible		
	Lower explosion limit: Not applicable		
	Upper explosion limit: Not applicable		
Thermal	Combustion generates toxic fumes of the following:, nitrogen oxides		
decomposition	(NOx), Carbon oxides, sulfur oxides.		
Extinguishing Media	Use the following extinguishing media when fighting fires involving		
	this material:		
	polar solvent (alcohol) foam		
	Water spray		
	Dry chemical		
	Carbon dioxide (CO2)		
Fire Fighting	: Wear full fire-fighting turn-out gear (full bunker gear) and		
Instructions	respiratory protection (self-contained breathing apparatus).		
	Evacuate area and fight fire from a safe distance. Containers can		
	rupture and release highly toxic vapors or decomposition products if		
	exposed to heat. Dried product can burn. Material can splatter above		
	100C/212F.		
Further information	Remain upwind.		
	Avoid breathing smoke.		
	Use water spray to cool unopened containers.		

6. Accidental Release Measures

Methods for cleaning up	: Contain spilled liquid with sand or earth. DO NOT use combustible		
	materials, such as sawdust.		
	Eliminate all ignition sources, use explosion-proof equipment.		
	Vacuum or sweep material and place in a disposal container.		
	The material is a water pollutant and should be prevented from		
	contaminating soil or from entering sewage and drainage systems		
	and bodies of water.		
Personal precaution	Appropriate protective equipment must be worn when handling a		
	spill of this material. See SECTION 8, Exposure Controls/Personal		
	Protection, for recommendations. If exposed to material during		
	clean-up operations, see SECTION 4, First Aid Measures, for actions		
	to follow.		

7. Handling And Storage

Handling	: Keep from freezing - product stability may be affected.			
	Avoid contact with skin, eyes and clothing.			
	Wash thoroughly after handling.			
	Keep container tightly closed.			
	Store in a cool, dry, well ventilated place.			
	Do not dismantle a cartridge.			
	Formaldehyde will be generated under acidic conditions.			
	Maintain adequate ventilation under these conditions to prevent			
	exposure to formaldehyde above ceiling of 0.3 ppm.			
Storage	: 5 - 25 °C (41 - 77 °F)			
FURTHER	: Monomer vapors can be evolved when material is heated during			
INFORMATION	processing operations. See SECTION 8, for types of ventilation			
	required.			
	Improper disposal or re-use of this container may be dangerous and			
	illegal. Refer to applicable local, state and federal regulations.			
	Dispose empty container in a sanitary landfill or by incineration as			
	allowed by state and local authorities.			

8. Exposure Controls / Personal Protection

Exposure Limit Values

No	Chemical Name		TWA	STEL	Ceiling	Skin	SEN
1	Modified Carbon	OSHA PEL	3.5 mg/m^3	N.E	N.E	N.E	N.E
1	black	ACGIH	3.5 mg/m^3	N.E	N.E	N.E	N.E

Exposure Controls

Occupational Exposure Controls

Engineering

Controls

: Use local exhaust ventilation with a minimum capture velocity of 100 ft/min. (0.5 m/sec.) at the point of vapor evolution. Refer to the current edition of Industrial Ventilation: A Manual of Recommended Practice published by the American Conference of Governmental Industrial Hygienists for information on the design, installation, use, and maintenance of exhaust systems.

Personal Protection Respiratory

: A respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements or equivalent must be followed whenever workplace conditions warrant a respirator's use. None required if airborne concentrations are maintained below the exposure limit listed in Exposure Limit Information. Up to 10 times the exposure limit: Wear a properly fitted NIOSH approved (or equivalent) half-mask, air-purifying respirator. Up to 1000 ppm organic vapor: Wear a properly fitted NIOSH approved (or equivalent) full-facepiece, air-purifying respirator, OR full-facepiece, airline respirator in the pressure demand mode. Above 1000 ppm organic vapor or Unknown: Wear a properly fitted NIOSH approved (or equivalent) self-contained breathing appartus in the pressure demand mode, OR full-facepiece, airline respirator in the pressure demand mode with emergency escape provision. Air-purifying respirators should be equipped with NIOSH approved (or equivalent) organic vapor cartridges and R95 or P95 filters.

Hand Protection

Chemical-resistant gloves should be worn whenever this material is handled. The glove(s) listed below may provide protection against permeation. (Gloves of other chemically resistant materials may not provide adequate protection): Neoprene gloves, Gloves should be

removed and replaced immediately if there is any indication of degradation or chemical breakthrough. Rinse and remove gloves immediately after use. Wash hands with soap and water. Use chemical splash goggles (ANSI Z87. 1 or approved equivalent). Eye protection worn must be compatible with respiratory protection system employed.

Use chemically resistant apron or other impervious clothing to avoid prolonged or repeated skin contact.

To prevent any contact, wear impervious clothing such as gloves,

apron, boots, or whole body suits made from neoprene, as appropriate.

Environmental Exposure Controls

: Not available

9. Physical And Chemical Properties

Appearance - Physic	al state	: liquid		
- Colour		: black		
Odour		: mild		
pH		: 7.5 - 9.5		
Boiling Point / Boiling I	Range	: 100 °C (212.00 °F) Water		
Melting Point / Merting	g Range	: Not available		
Decomposition Tempera	ature	: Not available		
Flash Point		: Noncombustible		
Auto-Ignition Temperature		: Not available		
Flammability(solid, gas)		: Not available		
Vapour Pressure		$\stackrel{\scriptstyle :}{\scriptstyle 17.0}$ mmHg at 20 °C (68 °F) Water		
Specific Gravity		: 0.95 - 1.05		
Solubility		: Not available		
Water solubility		: Dilutable		
Viscosity		: 2.500 - 4.000 mPa.s		
Vapour density		:<1.0Water		
Evaporation Rate		: <1.00 Water		
VOC		: 14.0g/l		

10. Stability And Reactivity

Conditions To Avoid	Avoid temperatures above 177C/350F, the onset of polymer
	decomposition.
	Thermal decomposition is dependent on time and temperature.
Stability	: This material is considered stable.
	Product will not undergo polymerization.
Materials To Avoid	Avoid contact with acids, alkalies and strong oxidizing agents.
Hazardous Reactions/	: Thermal decomposition may yield acrylic monomers.
Decomposition Products	

11. Toxicologocal Information

Acute Toxicity	Component: Glycols				
	Oral LD ₅₀	Dermal LD ₅₀	Inhalant LC_{50}		
	>10,000 mg/kg(rat)	>10,000 mg/kg(rabbit)			
	Component: Modified	d Carbon black			
	Oral LD ₅₀	Dermal LD ₅₀	Inhalant LC ₅₀		
	> 5,000 mg/kg(rabbit) 1 h 27,000 mg/l(rat)			
Eye Irritation	: Not available				
Skin Irritation	: rabbit slight irritation				
Sensitization	: Patch test on human volunteers did not demonstrate sensitization				
	properties.				
Mutagenicity	: Not available				
Carcinogenicity	: Modified Carbon black				
	ACGIH: Not classifiable as a human carcinogen.				
	IARC: Possible carcinogen.				
	US CA CRT: Carcinogenic.				
	NIOSH Potentially	y carcinogenic.			

12. Ecological Information

Handling is noted because it might influence the environment when leaking and abandoning it.

	Especially, note that the product doesn't flow directly to ground, the	
	river, and the drain ditch.	
Ecotoxicity	: Toxicity to fish	
	LC50 100 mg/l	
	Toxicity to aquatic invertebrates	
	EC50 Daphnia magna 100 mg/l	
Persistence And	: Not available	
Degradability		
Bioaccumulative	: Not available	
Potential		
Other Adverse Effects	: Not available	

13. Disposal Considerations

When a decision is made to discard this material as supplied, it does not meet RCRA's characteristic definition of ignitability, corrosivity, or reactivity, and is not listed in 40 CFR 261.33. The toxicity characteristic (TC), however, has not been evaluated by the Toxicity Characteristic Leaching Procedure (TCLP).

Incinerate liquid and contaminated solids in accordance with local, state, and federal regulations. Do not dump this product into sewers, on the ground or into any body of water.

14. Transport Information

Check a thing without a leak in a container.

Perform prevention of collapse of cargo surely.

UN Class/UN Number: Not applicable

DOT, IMO/IMDG : Not regulated

Transportation classification may vary by container volume and may be influenced by regional or country variations in regulations.

15. Regulatory Information

OSHA Status	: This product is considered hazardous under the OSHA Hazard	
	Communication Standard (29 CFR 1910.1200).	
TSCA Status	: All components of this product are in compliance with the inventory	

Product Name : Pigment Ink For Textile Black MSDS No. 031-33W03KC First issue : Oct 18, 2007 Revised : Jun 13, 2008 Page 9 of 10

listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

Material Safety Data Sheets

Cercle Reportable	: Not Applicable	
Quantity		
(40 CFR 117, 302)		
SARA TitleIII		
Section 302		
(40 CFR 355)		
Section 311/312	: Chronic Health Hazard	
(40 CFR 370)	Acute Health Hazard	
Section 313	: This product does not contain a chemical which is listed in Section	
(40 CFR 372)	313 at or above de minimis concentrations.	
CERCLA	: Releases of this material to air, land, or water are not reportable to	
(40 CFR 302. 4)	the National Response Center under the Comprehensive	
	Environmental Response, Compensation, and Liability Act (CERCLA)	
	or to state and local emergency planning committees under the	
	Superfund Amendments and Reauthorization Act (SARA) Title III	
	Section 304.	
Pennsylvania	: The following chemicals are listed because of the additional	
	requirements of Pennsylvania law:	
	Components:	
	Formaldehyde	
	Any material listed as "Not Hazardous" in the CAS REG NO. column	
	of SECTION 3, Composition/Information On Ingredients, of this	
	MSDS is a trade secret under the provisions of the Pennsylvania	
	Worker and Community Right-to-Know Act.	
California	: This product contains trace levels of a component or components	
(Proposition 65)	known to the state of California to cause cancer:	
	Components:	
	Ethyl acrylate 140-88-5	
	Formaldehyde 50-00-0	
Others	: This product is a 'controlled product' under the Canadian Workplace	
	Hazardous Materials Information System (WHMIS).	
	Please refer to any other federal, state and local regulations.
