

Product Name: Pigment Ink For Textile Magenta MSDS No. 031-33W03MC First issue: Oct 18, 2007

Revised: Jun 13, 2008

Page 1 of 12

1. Product and Company Identification

Product Name : Pigment Ink For Textile Magenta

Product Code : SPC-0350M

General Use : Ink jet printing ink

Product Description : Pigment ink
MSDS Number : 031-33W03MC

Manufacture

Company Name : Mimaki Engineering Co., Ltd

Address : 2182-3 Otsu, Shigeno, Tomi-shi, Nagano 389-0512 Japan

Telephone No. : +81-268-64-2413

Importer/Distributor Established in USA

Company Name : MIMAKI USA. INC.

Address : 150 Satellite Boulevard, suite A, Suwanee, Georgia 30024, U.S.A

Telephone No. : 1-678-730-0100 Emergency Telephone No. : +81-268-64-2413

2. Hazards Identification

Emergency Overview : Inhalation of vapor or mist can cause headache, nausea and

irritation of the nose, throat and lungs.

Causes severe eye irritation.

Prolonged or repeated overexposure to the solvent(s) in this material

can cause the following:

liver damage, kidney damage, embryofetotoxic effects

Prolonged or repeated overexposure to carbon black can cause lung

effects.

Potential Health Effects

Inhalation : Inhalation of solvent vapor or mist can cause the following:

irritation of nose, throat, and lungs

headache, nausea

Eye Contact : Direct contact with material can cause the following:

Severe irritation, tearing, reddening

Skin Contact : Material can cause the following:

slight irritation

Product Name: Pigment Ink For Textile Magenta MSDS No. 031-33W03MC First issue: Oct 18, 2007

Revised : Jun 13, 2008 Page 2 of 12

Ingestion : Material is possibly harmful if swallowed.

Material can cause the following:

Abdominal pain, Vomiting, nausea, depression, diarrhea, gastrointestinal irritation, dizziness

Carcinogens : Prolonged or repeated overexposure to carbon black can cause lung

effects.

C.I. Pigment Blue 15 IRIS: Not classified.

Potential Environmental : Prolonged or repeated overexposure to the solvent(s) in this material

Effects can cause the following:

kidney damage, liver damage

Medical conditions : No medical conditions are known to be aggravated by exposure to

SPC-0350M INK.

OSHA Hazardous

Communication Standard (29 CFR 1910.1200).

Components

(29 CFR 1910. 1200)

4. First Aid Measures

Inhalation : Move to fresh air. Give artificial respiration if breathing has

stopped. Consult a physician.

Eye Contact : Immediately flush eye(s) with plenty of water. Get prompt medical

attention.

Skin Contact : Wash with water and soap as a precaution. If skin irritation

persists, call a physician. Wash contaminated clothing before reuse.

:This product is considered hazardous under the OSHA Hazard

Ingestion : Drink 1 or 2 glasses of water. Consult a physician. Never give

anything by mouth to an unconscious person. If vomiting occurs

spontaneously, keep airway clear.

Note To Physician : Treatment may vary with condition of victim and specifics of

incident.

5. Fire Fighting Measures

Flammable Properties Flash point: Noncombustible

Lower explosion limit: Not applicable

Product Name: Pigment Ink
For Textile Magenta
MSDS No. 031-33W03MC
First issue: Oct 18, 2007

Revised: Jun 13, 2008 Page 4 of 12

Upper explosion limit: Not applicable

Thermal Combustion generates toxic fumes of the following:, nitrogen oxides

decomposition (NOx), Carbon oxides, sulfur oxides.

Extinguishing Media : Use the following extinguishing media when fighting fires involving

this material:

polar solvent (alcohol) foam

Water spray
Dry chemical

Carbon dioxide (CO2)

Fire Fighting : Wear full fire-fighting turn-out gear (full bunker gear) and

Instructions respiratory protection (self-contained breathing apparatus).

Evacuate area and fight fire from a safe distance. Containers can rupture and release highly toxic vapors or decomposition products if exposed to heat. Dried product can burn. Material can splatter above

100C/212F.

Further information : Remain upwind.

Avoid breathing smoke.

Use water spray to cool unopened containers.

6. Accidental Release Measures

METHODS : Contain spilled liquid with sand or earth. DO NOT use combustible

FOR CLEANING UP materials, such as sawdust.

Eliminate all ignition sources, use explosion-proof equipment.

Vacuum or sweep material and place in a disposal container.

The material is a water pollutant and should be prevented from contaminating soil or from entering sewage and drainage systems

and bodies of water.

HANDLING : Avoid contact with skin, eyes and clothing.

Do not breathe (dust, vapor, mist, gas).

Wash thoroughly after handling.

Use only clean, dry utensils in handling.

Keep container tightly closed. Store in a cool, dry, well ventilated

place.

Destroy contaminated shoes in proper manner.

Product Name: Pigment Ink For Textile Magenta MSDS No. 031-33W03MC First issue: Oct 18, 2007

> Revised: Jun 13, 2008 Page 5 of 12

STORAGE : Solidifies at about 5 - 25 °C (41 - 77 °F) and may break container.

Keep from freezing - product stability may be affected.

SPECIFIC USES : Formaldehyde will be generated under acidic conditions. Maintain

adequate ventilation under these conditions to prevent exposure to

formaldehyde above ceiling of 0.3 ppm.

FURTHER : Monomer vapors can be evolved when material is heated during

INFORMATION processing operations. See SECTION 8, for types of ventilation

required.

Improper disposal or re-use of this container may be dangerous and

illegal. Refer to applicable local, state and federal regulations.

Dispose empty container in a sanitary landfill or by incineration as

allowed by state and local authorities.

7. Handling And Storage

HANDLING : Avoid contact with skin, eyes and clothing.

Do not breathe (dust, vapor, mist, gas).

Wash thoroughly after handling.

Use only clean, dry utensils in handling.

Keep container tightly closed. Store in a cool, dry, well ventilated

place.

Destroy contaminated shoes in proper manner.

STORAGE : Solidifies at about 5 - 25 °C (41 - 77 °F) and may break container.

Keep from freezing - product stability may be affected.

SPECIFIC USES : Formaldehyde will be generated under acidic conditions. Maintain

adequate ventilation under these conditions to prevent exposure to

formaldehyde above ceiling of 0.3 ppm.

FURTHER : Monomer vapors can be evolved when material is heated during

INFORMATION processing operations. See SECTION 8, for types of ventilation

required.

Improper disposal or re-use of this container may be dangerous and

illegal. Refer to applicable local, state and federal regulations.

Dispose empty container in a sanitary landfill or by incineration as

allowed by state and local authorities.

8. Exposure Controls / Personal Protection

Product Name: Pigment Ink
For Textile Magenta
MSDS No. 031-33W03MC
First issue: Oct 18, 2007

Revised : Jun 13, 2008 Page 6 of 12

Exposure Limit Values

No	Chemical Name		TWA	STEL	Ceiling	Skin	REL
1	Glycols	OSHA PEL	N.E	N.E	N.E	N.E	N.E
		ACGIH TLV	N.E	N.E	N.E	N.E	N.E
2	Pyrrolidone	OSHA PEL	N.E	N.E	N.E	N.E	N.E
		ACGIH TLV	N.E	N.E	N.E	N.E	N.E

Exposure Controls

Occupational Exposure Controls

Engineering

Controls

: Use local exhaust ventilation with a minimum capture velocity of 100 ft/min. (0.5 m/sec.) at the point of vapor evolution. Refer to the current edition of Industrial Ventilation: A Manual of Recommended Practice published by the American Conference of Governmental Industrial Hygienists for information on the design, installation, use, and maintenance of exhaust systems.

Personal Protection

Respiratory

Protection

: A respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements or equivalent must be followed whenever workplace conditions warrant a respirator's use. None required if airborne concentrations are maintained below the exposure limit listed in Exposure Limit Information. Up to 10 times the exposure limit: Wear a properly fitted NIOSH approved (or equivalent) half-mask, air-purifying respirator. Up to 1000 ppm organic vapor: Wear a properly fitted NIOSH approved (or equivalent) full-facepiece, air-purifying respirator, OR full-facepiece, airline respirator in the pressure demand mode. Above 1000 ppm organic vapor or Unknown: Wear a properly fitted NIOSH approved (or equivalent) self-contained breathing appartus in the pressure demand mode, OR full-facepiece, airline respirator in the pressure demand mode with emergency escape provision. Air-purifying respirators should be equipped with NIOSH approved (or equivalent) organic vapor cartridges and R95 or P95 filters.

Product Name: Pigment Ink
For Textile Magenta
MSDS No. 031-33W03MC

Page 7 of 12

Gloves

Hand Protection

Chemical-resistant gloves should be worn whenever this material is handled. The glove(s) listed below may provide protection against permeation. (Gloves of other chemically resistant materials may not provide adequate protection): Neoprene gloves Gloves should be removed and replaced immediately if there is any indication of degradation or chemical breakthrough. Rinse and remove gloves immediately after use. Wash hands with soap and water.

Eye Protection

Wear coverall, chemical goggles and face shield when handling.

Skin Protection

To prevent any contact, wear impervious clothing such as gloves, apron, boots, or whole body suits made from neoprene, as appropriate.

Environmental Exposure Controls

: Not available

9. Physical And Chemical Properties

Appearance - Physical state : liquid

- Colour : Magenta

Odour : mild : 7.5 - 9.5

Boiling Point / Boiling Range : 100 °C (212.00 °F) Water

Melting Point / Merting Range : Not available

Decomposition Temperature : Not available

Flash Point : Noncombustible

Auto-Ignition Temperature : Not available

Flammability(solid, gas) : Not available

Vapour Pressure : 17.0 mmHg at 20 °C (68 °F) Water

Specific Gravity : 0.95 - 1.05
Solubility : Not available
Water solubility : Dilutable

Viscosity : 2.500 - 4.000 mPa.s

Vapour density : <1.0Water
Evaporation Rate : <1.00 Water

VOC : 14.0g/l

10. Stability And Reactivity

Conditions To Avoid : Thermal decomposition may yield acrylic monomers.

Stability : Product will not undergo polymerization.

Materials To Avoid : Avoid contact with acids, alkalies and strong oxidizing agents.

Hazardous Reactions/ : This material is considered stable.

Decomposition Products However, avoid temperatures above 177C/350F, the onset of polymer

decomposition. Thermal decomposition is dependent on time and

temperature.

11. Toxicologocal Information

Acute Toxicity Component: Glycols

Product Name : Pigment Ink For Textile Magenta MSDS No. 031-33W03MC

First issue : Oct 18, 2007 Revised : Jun 13, 2008

Page 9 of 12

Oral LD₅₀ Dermal LD₅₀ Inhalant LC₅₀

>10,000 mg/kg(rat) >10,000 mg/kg(rabbit)

Component: C.I. Pigment Blue 15

Oral LD_{50} Dermal LD_{50} Inhalant LC_{50}

> 5,000 mg/kg(rat)

Eye Irritation : Not available

Skin Irritation : rabbit slight irritation

Sensitization : Patch test on human volunteers did not demonstrate sensitization

properties.

Mutagenicity : Not available Carcinogenicity : Not available

12. Ecological Information

Handling is noted because it might influence the environment

when leaking and abandoning it.

Especially, note that the product doesn't flow directly to ground,

the river, and the drain ditch.

Ecotoxicity : Toxicity to fish

LC50 100 mg/l

Toxicity to aquatic invertebrates

EC50 Daphnia magna 100 mg/l

Persistence And

: Not available

Degradability

Bioaccumulative Potential : Not available

Other Adverse Effects : Not available

13. Disposal Considerations

: When a decision is made to discard this material as supplied, it does not meet RCRA's characteristic definition of ignitability, corrosivity, or reactivity, and is not listed in 40 CFR 261.33. The toxicity characteristic (TC), however, has not been evaluated by the Toxicity

Product Name: Pigment Ink
For Textile Magenta
MSDS No. 031-33W03MC

Characteristic Leaching Procedure (TCLP).

Incinerate liquid and contaminated solids in accordance with local, state, and federal regulations.

Comply with all EU, national and local regulations.

Do not dump this product into sewers, on the ground or into any body of water.

14. Transport Information

Check a thing without a leak in a container.

Perform prevention of collapse of cargo surely.

UN Class/UN Number: Not applicable DOT, IMO/IMDG: Not applicable

15. Regulatory Information

OSHA Status : This product is considered hazardous under the OSHA Hazard

Communication Standard (29 CFR 1910.1200).

TSCA Status : All components of this product are in compliance with the inventory

listing requirements of the U.S. Toxic Substances Control Act (TSCA)

Chemical Substance Inventory.

Cercle Reportable

: Not Applicable

Quantity

(40 CFR 117, 302)

SARA TitleIII

Section 302 : Releases of this material to air, land, or water are not reportable to

(40 CFR 355) the National Response Center under the Comprehensive

Environmental Response, Compensation, and Liability Act (CERCLA)

or to state and local emergency planning committees under the Superfund Amendments and Reauthorization Act (SARA) Title III

Section 304.

Section 311/312 : Acute Health Hazard

(40 CFR 370)

Section 313 : This product does not contain a chemical which is listed in Section

Product Name: Pigment Ink For Textile Magenta MSDS No. 031-33W03MC First issue: Oct 18, 2007

> Revised : Jun 13, 2008 Page 11 of 12

(40 CFR 372) 313 at or above de minimis concentrations.

Pennsylvania : The following chemicals are listed because of the additional

requirements of Pennsylvania law:

Components:

Formaldehyde

Any material listed as "Not Hazardous" in the CAS REG NO. column of SECTION 3, Composition/Information On Ingredients, of this MSDS is a trade secret under the provisions of the Pennsylvania

Worker and Community Right-to-Know Act.

California : This product contains trace levels of a component or components

(Proposition 65) known to the state of California to cause cancer:

Components:

Ethyl acrylate 140-88-5 Formaldehyde 50-00-0

Others : This product is a 'controlled product' under the Canadian Workplace

Hazardous Materials Information System (WHMIS).

Please refer to any other federal, state and local regulations.
