

Safety Data Sheets

1. Identification

Product Name	Antifreeze Mixed water 35%
Order No.	: SPC-0783
General Use	: General cold and heat medium(Food factory), ice storage refrigerant
Product Description	Antifreeze Mixed water
SDS Number	: 037-O040575
Manufacture	
Company Name	[:] Mimaki Engineering Co., Ltd.
Address	2182-3 Shigeno-otsu, Tomi-shi, Nagano 389-0512 JAPAN
Telephone No.	: +81-268-64-2413
Importer / Distributor Esta	ablished in USA
Company Name	: MIMAKI USA, INC.
Address	: 150 Satellite Boulevard NE , suite A, Suwanee, Georgia 30024,
	U.S.A.
Telephone No.	: +1-678-730-0170
Emergency Telephone No.	: +1 866 928 0789 (within United States only, Toll free)
	$+1\ 215\ 207\ 0061$

2. Hazards Identification

[GHS Classification]	
Physical Hazards	
Flammable Liquids	: Not classified
Pyrophoric Liquids	: Not classified
Health Hazards	
Acute Toxicity – Oral	: Not classified
Acute Toxicity – Dermal	: Not classified
Skin Corrosion / Irritation	: Not classified
Eye Damage / Irritation	: Not classified
Sensitization - Respiratory	: Not classified
Sensitization – Skin	: Not classified
Germ Cell Mutagenicity	: Not classified
Specific Target Organ Toxicity	: Not classified
(Single Exposure)	

Safety Data Sheets

Specific Target Organ Toxicity	: Not classified
(Repeated Exposure)	
Environmental Hazards	
Hazardous to the Aquatic	: Not classified
Environment - Acute Hazard	
Hazardous to the Aquatic	: Not classified
Environment - Long Term Hazard	

The above list does not include category being non-classifiable or not-applicable.

[GHS Label Elements] Symbol None Signal Word None Hazard Statements None Precautionary Statements None

3. Composition / Information on Ingredients

No	Chemical Name	Wt%	CAS No.
1	Propylene glycol	15 - 25	57-55-6
2	Additive	1-5	Trade Secret
3	Water	75-80	7732-18-5

4. First Aid Measures

Inhalation	: Immediately remove victim to fresh air. Keep Victim warm by
	covering with a blanket and rest. If breathing is weak or stopped,
	loosen clothing and maintain an open airway and then, give
	artificial respiration. If unconscious but breathing or if conscious but
	breathing is difficult, it is effective to give oxygen. It is
	recommended to conduct under doctor's instructions.
Eye Contact	: Remove contact lenses, if present and easy to do. Continue rinsing.
	Rinse eyes with clean water for at least 15 minutes and get medical
	attention from an ophthalmologist immediately. Hold eyelids open
	and away from eyeballs with fingers to ensure that all surfaces are

Mimciki Safety Data Sheets

fluchod	thoroughly.
nusneu	unorouginy.

	Habilou hioroughij.
Skin Contact	Remove contaminated clothing, shoes, etc. promptly. Cut it off if
	necessary. Flush affected area with water or lukewarm water and
	wash off with soap. If visual change occurs or pain persists, get
	medical attention.
Ingestion	: If conscious, induce vomiting by giving more than two cups of milk
	or water and get medical attention immediately. Never give water,
	etc to an unconscious person. Keep victim warm and get medical
	attention immediately.
Expected acute and	: If swallowed, it can cause diarrhea, vomit.
delayed symptoms, most	If in eyes, it can cause inflammation.
important sign and	If on skin, it can cause inflammation.
symptoms	If inhaled mist, it can cause nausea.

5. Fire Fighting Measures

Flammable Properties	: Flash point : None
Extinguishing Media	: Use water (water fog), dry powder, alcohol-resistant foam.
Unsuitable extinguishing	: Don't use fire hose.
Media	
Fire Fighting	: Eliminate all sources of ignition form fire area. For initial fire, use
Instructions	water (water fog), dry powder, etc. for fighting fire. For large fire, it
	is effective to use foam (alcohol-resistant foam), etc to shut off air
	supply. Pouring water can be dangerous by expanding fire. Cool
	surrounding facilities, etc. with water spray. Prohibit unnecessary
	personnel from entering fire area. Immediately remove movable
	container to a safe area.
Protection for	: Wear safety glasses, protective clothing, and respiratory protection $% \left({{{\left[{{\left[{\left[{\left[{\left[{\left[{\left[{\left[{\left[$
fire-fighters	for the situation during fire fighting. Extinguish fire form upwind.

6. Accidental Release Measures

Personal Precautions : Prohibit unnecessary personnel from entering spilled area separated by rope, etc. Wear suitable protective equipment during clean-up to prevent contact with water drop or inhalation of gas. Work from upwind and evacuate from downwind.

MIMCIKI Safety Data Sheets

Precautions for the	: Since it is related to soil and water contamination, recover spills as
environment	much as possible.
Recovery/neutralization	: For large spills, dike with earth and sand, etc. to prevent spreading
	and sweep into an empty container and dispose of in a safe place. Be
	tender of discharging into sewers, drains, etc. Be sure to wear
	protective equipment during clean-up. For small spills, absorb with
	dry sand, earth, sawdust, wastes, etc and collect into an empty
	container that can be closed.
Method for containment	: Stop leakage, if it can be done without risk. In case of running off,
and clean-up	prevent spread of the liquid and scoop or absorb with a proper
	absorbent. If inevitable, use a chemical. When using a chemical, it
	should meet the technical standards set by the Ordinance of the
	Ministry of Transport.
Preventive measure of	: Immediately eliminate all source of ignition nearby. Request
secondary disaster	cooperation by giving notice to relevant agencies.

7. Handling and Storage

Handling Technical measures:	: Keep good working environment. Prevent spills, overflow, scattering and generation of vapors. Prohibit the use of sources of fire, sparks and arcs around the handling place. Prohibit the use near sources of ignition of high temperature. Repair machinery containing residues after completely removing them in a safe place. Take precautionary
	measures against static discharge and wear conductive working clothes, shoes, etc. Since vapors are heavier than air, it is likely to stay in low areas. So, pay attention to ventilation and sources of fire, etc. Handle at room temperature and pay attention to mixing with
	water or impurities. If it is possible to contact with skin or eyes, wear protective equipment. If mist is generated, do not breathe mist by wearing respirators, etc. Use a pump, etc. to take out the product from a container. Use a thin tube and do not suck it with mouth. Do
Local exhaust or general ventilation Avoid to contact	 not weld, heat, puncture or cut containers. It can cause ignition of residues following explosion. See 'Section 8.Exposure Controls and Personal Protective Equipment' . See 'Section 10. Stability and Reactivity'.

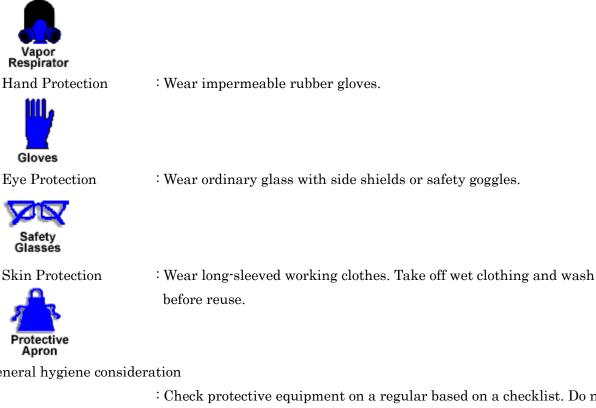

MINCIKI Safety Data Sheets

Precaution for safe	: Obtain special instruction before use. Do not handle until all safety
handling	precautions have been read and understood. Pay attention to sources
	of fire. Wash hands and eyes thoroughly after handling. If on
	clothing, change clothing. Use only outdoors or in a well-ventilated
	area. Do not eat or smoke when using this product. Do not put
	pressure to an empty container. It can cause rupture of a container.
	Do not drink. Keep out of the reach of children.
Storage	
Technical measure	Avoid heat, sparks, open flames and static built -up. Be sure to keep
	container tightly closed.
Incompatible materials	: See 'Section 10. Stability and Reactivity'.
Storage condition	: Keep container in a well-ventilated area. Protect from direct sunlight.
	Keep away from oxidizing agents.
Safe container and	: Use container without damage, corrosion, cracks, etc. Do not handle a
packaging material	container in a violent manner such as turning over, impacting or
	dragging it. Keep used container at a certain designated place.
	dragging it. Reep used container at a certain designated place.

8. Exposure Controls / Personal Protection

Exposure Controls Exposure Controls	: Not established.
-	el(Threshold limits, biological exposure indices, etc):
	Not established.
	The Japanese Occupational Hygiene Society (2009): Not established.
	ACGIH (2009): Not established.
Occupational Exposure C	ontrols
Engineering Controls:	If mist and vapor is generated, use enclosure of sources or local exhaust ventilation. Provide safety shower, basin and eye wash facilities near the place where the product is handled and indicate the location clearly.
Personal Protection Respiratory Protection	: Wear gas mask for toxic gas, if necessary.

*Μ*ιmakı[®] Safety Data Sheets

general hygiene consideration

: Check protective equipment on a regular based on a checklist. Do not eat or smoke during work. Wash hands with soap before eating or smoking.

9. Physical and Chemical Properties

: liquid
: Red clear
: Almost odorless
: 8.0 - 9.0
: Not Available
: Not Available
: None
: None.
: None.
: None.
: Not Available
: No data.
: 1.020 - 1.030
Soluble in water, low alcohols, acetone

Partition coefficient(n-octanol/water)	: Not Available
Auto-ignition temperature	: Not Available
Decomposition temperature	: Not Available

10. Stability and Reactivity

Conditions to Avoid	: No data. (No hazardous reactions under normal handling condition.)
Stability	: Stable
Materials to Avoid	: Strong acids, strong oxidizing agents.
Hazardous Reactions /	: Explosion/ignition at room temperature hardly occurs, but if moisture
Decomposition Products	is evaporated at high temperature, it is easy to ignite/burn. It can
	react with strong acids, strong oxidizing agents violently.

11. Toxicological Information

Acute Toxicity	: (Annex) Acute toxicity(Oral, dermal, inhalation)					
	Content	Oral	Dermal	Inhalation	Inhalation	Inhalation
	(%)			(Gas)	(Vapor)	(Dust, mist)
①Propylene	$15 \sim 25\%$	Not	Not	Not	Classification	Classification
glycol		classified	classified	applicable	not possible	not possible
2 Additive	$1\sim\!5\%$	Classificat	Classifica	Not	Classification	Classification
		ion not	tion not	applicable	not possible	not possible
		possible	possible			
3Water	$75 \sim 80\%$	Not	Not	Not	Not classified	Not classified
		classified	classified	applicable		
Total	100%					

Oral:	: It contains acute toxicant (oral) on Annex. The product as a
	mixture is classified as 'Acute toxicity (Oral): Not classified'.
Dermal:	: It contains acute toxicant (dermal) on Annex. The product as a
	mixture is classified as 'Acute toxicity (Dermal): Not classified'.
Inhalation:	: It contains acute toxicant (inhalation) on Annex. The product as a
	mixture is not possible to classify for acute toxicity(inhalation).
Eye Irritation:	• It contains eye irritants classified belowNot classified: Water,
	propylene glycol ⁵⁾
	[·] The product as a mixture is classified as 'Serious eye damage/eye

Safety Data Sheets

	irritation: Not classified'.
	• Serious eye damage/eye irritation of 1~5% of this mixture is
	unknown.
Skin Irritation:	• It contains skin irritants classified belowNot classified: Water
	• The product as a mixture is classified as 'Skin corrosion/irritation:
	Not classified'.
	\cdot Skin corrosion/irritation of 1~5% of this mixture is unknown.
Sensitization:	\cdot It contains respiratory sensitizers classified below. Not classified:
	Water, propylene glycol ⁵⁾
	• The product as a mixture is classified as 'Respiratory sensitization:
	Not Classified'.
	• Respiratory sensitization of 1~5% of this mixture is unknown.
	• It contains skin sensitizers classified belowNot classified: Water,
	propylene glycol ⁵⁾
	• The product as a mixture is classified as 'Skin sensitization: Not
	classified'.
	• Skin sensitization of $1\sim5\%$ of this mixture is unknown.
Germ cell mutagenicity:	• It contains germ cell mutagens classified belowNot classified:
	Water, propylene glycol ⁵⁾
	• The product as a mixture is classified as 'Germ cell mutagenicity'
	Not classified'.
	• Germ cell mutagenicity of 1~5% of this mixture is unknown.
Carcinogenicity:	• Classification is not possible due to lack of data.
Reproductive toxicity:	Classification is not possible due to lack of data.
Specific target organ toxicit	
opeenie target organ toxien	• It contains specific target organ toxicants(single exposure)
	classified belowNot classified: Water, propylene glycol ⁵⁾
	• The product as a mixture is classified as 'Specific target organ
	toxicity (single exposure): Not classified'.
Creating towned armore towicit	
Specific target organ toxicit	• It contains specific target organ toxicants(repeated exposure)
	classified belowNot classified: Water
	• The product as a mixture is classified as 'Specific target organ
A	toxicity(repeated exposure): Not classified'.
Aspiration hazard:	• Classification is not possible due to lack of data.

Safety Data Sheets

	Handling is noted because it might influence the environment when
	leaking and abandoning it.
	Especially, note that the product doesn't flow directly to ground, the
	river, and the drain ditch.
Ecotoxicity	\cdot It contains hazardous substances(acute)to aquatic environment
	classified belowNot classified: Water, propylene glycol ⁵⁾
	• The product as a mixture is classified as 'Hazards to aquatic
	environment (Acute): Not classified'.
	\cdot Hazards to aquatic environment (Acute) of 1~5% of this mixture is
	unknown.
	\cdot It contains hazardous substances (chronic) to aquatic environment
	classified belowNot classified: Water, propylene glycol ⁵⁾
	\cdot The product as a mixture is classified as 'Hazards to aquatic
	environment (Chronic): Not classified'.
	\cdot Hazards to aquatic environment (Chronic) of 1~5% of this mixture is
	unknown.
Persistence/degradability:	: Not Available
Bio-accumulation:	: Not Available
Mobility in soil:	: Not Available
Other adverse effects:	: Not Available
Environment criteria:	: Not Available

13. Disposal Considerations

Residual wastes	: Comply with all USA, national and local regulations. <u>Do not dump</u>	
	this product into sewers, on the ground or into any body of water.	
Contaminated container and packages:		
	: Contaminated or empty container packaging are to be disposed	
	according to national and local regulation.	

14. Transport Information

US DOT Information	: Not regulated as a hazardous material for transport.
TDG Information	: Not regulated as dangerous goods for transport.

MIMCIKI Safety Data Sheets

IATA Information	: Not regulated as dangerous goods for transport.
ICAO Information	: Not regulated as dangerous goods for transport.
IMDG Information	: Not regulated as dangerous goods for transport.
Special precautions	: Load the containers in a manner that they are certain not to result
	in direct sunlight exposure, damage, corrosion, leak, while being
	transport.
	Load the containers in manner that they are not to fall apart while
	being transport.
	Do not place heavy load on top of the container.
	Check a thing without a leak in a container.
	Perform prevention of collapse of cargo surely.

15. Regulatory Information

US federal regulations	All components are active on the TSCA Inventory List.
