Hazardous Combustion

Products

Fire Fighting Measures

: Combustion: oxides of carbon, oxides of nitrogen

: Move container from fire area if it can be done without risk. Do not

scatter spilled material with high-pressure water streams. Cool

containers with water spray until well after the fire is out. Stay away

from the ends of tanks. Avoid inhalation of material or combustion

by-products. For fires in cargo or storage area: Cool containers with

water from unmanned hose holder or monitor nozzles until well after

fire is out. If this is impossible then take the following precautions:

Keep unnecessary people away, isolate hazard area and deny entry.

Let the fire burn. Withdraw immediately in case of rising sound from

venting safety device or any discoloration of tanks due to fire.

Special Protective : Wear full protective fire fighting gear including self contained

Equipment and breathing apparatus (SCBA) for protection against possible exposure.
