

Product Identifier: SS22 Cyan SDS No. 037–S337607

First issue: 2023/09/11

Revised:

1. IDENTIFICATION

Product Identifier SS22 Cyan

Product code SS22-C-1L / SS22-C-44
Recommended use of the chemical and Ink for ink jet printer

restrictions on use

Manufacturer MIMAKI ENGINEERING CO., LTD.

2182-3 Shigeno-otsu, Tomi-shi, Nagano 389-0512 JAPAN

+81-268-64-2413

Importer / Distributor MIMAKI USA, INC.

150 Satellite Boulevard NE, suite A, Suwanee, Georgia 30024, U.S.A.

+1-678-730-0170

Emergency Telephone No. +1 866 928 0789 (within United States only, Toll free)

+1 215 207 0061

2. HAZARDS IDENTIFICATION

Classification of the chemical in accordance with paragraph (d) of 29

CFR § 1910.1200

Flammable Liquids Category 4

Serious Eye Damage/Eye Irritation Category 1

Reproductive Toxicity Category 2

GHS Label Elements

Symbols

Signal Word Danger

Hazard Statements H227 Combustible liquid.

H318 Causes serious eye damage.

H361 Suspected of damaging fertility or the unborn child.

Precautionary Statements

Prevention Obtain SDS (Safety Data Sheet) and printer's Operation Manual before

use. (P201)

Keep away from heat, hot surfaces, sparks, open flames and other

ignition sources. No smoking. (P210)

Wear protective gloves, protective clothing, eye protection and face

protection. (P280)

Do not handle until all safety precautions have been read and

understood. (P202)

Response IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

(P305+P351+P338)

Product Identifier: SS22 Cyan SDS No. 037-S337607 First issue: 2023/09/11

Revised:

IF exposed or concerned: Get medical advice/ attention. (P308+P313) Immediately call a POISON CENTER/doctor/physician/first aider.

(P310)

In case of fire: Use alcohol resistant foam or normal protein foam to

extinguish. (P370+P378)

Storage Store in a well-ventilated place. Keep cool. (P403+P235)

Store locked up. (P405)

Disposal Dispose of contents/container to authorised hazardous or special

waste collection point in accordance with any local regulation. (P501)

NFPA Hazard Rating

Health Flammability 2 Reactivity

Specific hazard Not applicable

3. COMPOSITION / INFORMATION ON INGREDIENTS

Substances or mixtures	Mixtures	
Chemical name	Contents	CAS number
Glycol ether solvent	80-90	Trade secret
Heterocyclic compound	1–10	Trade secret
Vinyl resin	1–10	Trade secret
Phthalocyanine pigment	1-10	Trade secret

4. FIRST-AID MEASURES	
In case of inhalation	If fumes, aerosols or combustion products are inhaled remove from

contaminated area. Other measures are usually unnecessary.

In case of skin contact Immediately remove all contaminated clothing, including footwear.

Flush skin and hair with running water (and soap if available).

Seek medical attention in event of irritation.

Immediately hold eyelids apart and flush the eye continuously with In case of eye contact

running water.

Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper

and lower lids.

Continue flushing until advised to stop by the Poisons Information

Centre or a doctor, or for at least 15 minutes. Transport to hospital or doctor without delay.

Removal of contact lenses after an eye injury should only be

undertaken by skilled personnel.

In case of ingestion Immediately give a glass of water.

Product Identifier: SS22 Cyan SDS No. 037-S337607

First issue: 2023/09/11

Revised:

First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

Most important symptoms and effects, both acute and delayed

See Section 11

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. FIRE-FIGHTING MEASURES	
Suitable extinguishing media	Foam, Dry chemical powder, BCF (where regulations permit), Carbon
	dioxide and Water spray or fog – Large fires only.
Unsuitable extinguishing media	Cylindric water.
Specific hazards arising from the chemical	Avoid contamination with oxidising agents i.e. nitrates, oxidising acids, chlorine bleaches, pool chlorine etc. as ignition may result.
Special protective equipment and precautions for fire-fighters	Alert Fire Brigade and tell them location and nature of hazard.
	Wear full body protective clothing with breathing apparatus.
	Prevent, by any means available, spillage from entering drains or water course.
	Use water delivered as a fine spray to control fire and cool adjacent area.
	Avoid spraying water onto liquid pools.
	DO NOT approach containers suspected to be hot.
	Cool fire exposed containers with water spray from a protected
	location.
	If safe to do so, remove containers from path of fire.
Fire/Explosion Hazard	Combustible.
	Slight fire hazard when exposed to heat or flame.
	Heating may cause expansion or decomposition leading to violent rupture of containers.
	On combustion, may emit toxic fumes of carbon monoxide (CO). May emit acrid smoke.
	Mists containing combustible materials may be explosive.
	Combustion products include carbon dioxide (CO2) and other pyrolysis
	products typical of burning organic material.
	May emit poisonous fumes.
	May emit corrosive fumes.
	May emit corrosive fumes.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures Environmental precautions

See section 8

See section 12

Major Spills

Safety Data Sheet

Product Identifier: SS22 Cyan SDS No. 037-S337607 First issue: 2023/09/11

Revised:

Methods and materials for containment and cleaning up

Minor Spills Remove all ignition sources.

Clean up all spills immediately.

Avoid breathing vapours and contact with skin and eyes.

Control personal contact with the substance, by using protective

equipment.

Contain and absorb spill with sand, earth, inert material or vermiculite.

Wipe up

Place in a suitable, labelled container for waste disposal.

Moderate hazard.

Clear area of personnel and move upwind.

Alert Fire Brigade and tell them location and nature of hazard.

Wear breathing apparatus plus protective gloves.

Prevent, by any means available, spillage from entering drains or water

course.

No smoking, naked lights or ignition sources.

Increase ventilation.

Stop leak if safe to do so.

Contain spill with sand, earth or vermiculite.

Collect recoverable product into labelled containers for recycling.

Absorb remaining product with sand, earth or vermiculite. Collect solid residues and seal in labelled drums for disposal.

Wash area and prevent runoff into drains.

If contamination of drains or waterways occurs, advise emergency

services.

7. HANDLING AND STORAGE

Precautions for safe handling Safe handling

Avoid all personal contact, including inhalation.

Wear protective clothing when risk of exposure occurs.

Use in a well-ventilated area.

Prevent concentration in hollows and sumps.

DO NOT enter confined spaces until atmosphere has been checked.

Avoid smoking, naked lights or ignition sources.

Avoid contact with incompatible materials.

When handling, DO NOT eat, drink or smoke.

Keep containers securely sealed when not in use.

Avoid physical damage to containers.

Always wash hands with soap and water after handling.

Work clothes should be laundered separately.

Use good occupational work practice.

Other information

Product Identifier: SS22 Cyan SDS No. 037–S337607

First issue: 2023/09/11

Revised:

Observe manufacturer's storage and handling recommendations

contained within this SDS.

Atmosphere should be regularly checked against established exposure

standards to ensure safe working conditions.

DO NOT allow clothing wet with material to stay in contact with skin.

Store in original containers.

Keep containers securely sealed.

No smoking, naked lights or ignition sources. Store in a cool, dry, well-ventilated area.

Store away from incompatible materials and foodstuff containers. Protect containers against physical damage and check regularly for

leaks.

Observe manufacturer's storage and handling recommendations contained within this SDS.

Conditions for safe storage, including any incompatibilities

Storage incompatibility

Avoid reaction with oxidising agents i.e. nitrates, oxidising acids, chlorine bleaches, pool chlorine etc.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters

Occupational Exposure Limits (OEL)

Occupational Exposure Banding

Ingredient	Occupational Exposure Band Rating	Occupational Exposure Band Limit	
Glycol ether solvent	E	≤ 0.1 ppm	
Heterocyclic compound	E	≤ 0.1 ppm	

Notes:

Occupational exposure banding is a process of assigning chemicals into specific categories or bands based on a chemical's potency and the adverse health outcomes associated with exposure. The output of this process is an occupational exposure band (OEB), which corresponds to a range of exposure concentrations that are expected to protect worker health.

Exposure controls

General exhaust is adequate under normal operating conditions. If risk Appropriate engineering controls

> of overexposure exists, wear SAA approved respirator. Correct fit is essential to obtain adequate protection. Provide adequate ventilation

in warehouse or closed storage areas.

Individual protection measures, such as

personal protective equipment

Respiratory protection Consult with a health and safety professional for specific respirators

appropriate for your use.

Hand protection Wear chemical protective gloves, e.g. PVC.

Safety glasses with side shields. Chemical goggles. Contact lenses Eye protection

may pose a special hazard; soft contact lenses may absorb and

concentrate irritants.

Skin and body protection Wear safety footwear or safety gumboots, e.g. Rubber. Overalls.

P.V.C. apron.

See section 5

11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Inhaled The material is not thought to produce adverse health effects or

irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be

used in an occupational setting.

Ingestion The material has NOT been classified by EC Directives or other

classification systems as "harmful by ingestion". This is because of the

Skin Contact

Chronic

Product Identifier: SS22 Cyan SDS No. 037–S337607 First issue: 2023/09/11

Revised:

Safety Data Sheet

lack of corroborating animal or human evidence.

Skin contact is not thought to have harmful health effects (as

classified under EC Directives); the material may still produce health

damage following entry through wounds, lesions or abrasions. There is some evidence to suggest that this material can cause

inflammation of the skin on contact in some persons.

Open cuts, abraded or irritated skin should not be exposed to this

material

Entry into the blood-stream, through, for example, cuts, abrasions or lesions, may produce systemic injury with harmful effects. Examine the skin prior to the use of the material and ensure that any external

damage is suitably protected.

Eye If applied to the eyes, this material causes severe eye damage.

Ample evidence from experiments exists that there is a suspicion this

material directly reduces fertility.

Ingredient	TOXICITY	IRRITATION

Not Applicable

15. REGULATORY INFORMATION

Safety, health and environmental regulations / legislation specific for the substance or mixture

Glycol ether solvent is found on the following regulatory lists

US - California Hazardous Air Pollutants Identified as Toxic Air Contaminants

US EPCRA Section 313 Chemical List

US Toxic Substances Control Act (TSCA) - Chemical Substance Inventory

Heterocyclic compound is found on the following regulatory lists

US Toxic Substances Control Act (TSCA) - Chemical Substance Inventory

US TSCA Section 12(b) - List of Chemical Substances Subject

to Export Notification Requirements

US TSCA Section 5(a)(2) - Significant New Use Rules (SNURs)

Vinyl resin is found on the following regulatory lists

International Agency for Research on Cancer (IARC) - Agents Classified by the IARC Monographs - Not Classified as Carcinogenic

International WHO List of Proposed Occupational Exposure Limit (OEL) Values for Manufactured Nanomaterials (MNMS)

US - Alaska Air Quality Control - Concentrations Triggering an Air Quality Episode for Air Pollutants Other Than PM-2.5

US DOE Temporary Emergency Exposure Limits (TEELs)

US NIOSH Recommended Exposure Limits (RELs)

US OSHA Permissible Exposure Limits (PELs) Table Z-1

US OSHA Permissible Exposure Limits (PELs) Table Z-3

US Toxic Substances Control Act (TSCA) - Chemical Substance Inventory
